85021199	Pump unit, exch	1	O	

Method

Note: Ensure that there are no outstanding software campaigns for the EMS and ACM. If so, they must be performed before using this policy.

Note: This Policy can only be used if Guided Diagnostic fault tracing for fault codes leads to that the pump unit must be replaced. Write the DTCs in the claim.

Note: If/when the workshop is asked to return the old part, make sure all protection covers are installed on the pump unit.

- 1 Replace the pump unit. *Impact operation 25807-2 Pump unit, replace.*
